## MACHINERY FOR NEW MILL

Boilers, Engines and Milling Machinery Bought Last Week.

CAPACITY 350 BARRELS.

Building Will be Ready For Machinery January 1st, 1907.

The Climax Milling Company closed a contract last Saturday for the milling machinery of their new plant. The engine and boilers were bought a few days before. Competition was close, there being twenty-two representatives from different engine and boiler builders and milling machinery firms during the week from nearly a dozen cities.

The Climax Co. went slowly in selecting their machinery as they wanted nothing but the most modern, tried and approved, something that won't have to be replaced in a short time. The first purchase made was a 300 horse-power Corliss engine from the Hooser, Owens Rentschler Co., of Hamilton, Ohio. This company is recognized everywhere as builders of the very highest grade of stationary engines. Sixteen years ago the company put in one of their engines for the Crescent Milling Co., and with continuous use it has cost nothing for repairs except re-boring the cylinder once. The Climax people know they will have one of the best heavy duty engines made in this country.

The boilers were next bought. The Atlas Boiler and Engine Works, of Molay, Ind., secured this contract. The boilers will be of the "water tube" type, which is something new here and are said to be the best in every way made. This company will also furnish all pumps and connections and feed pumps.

The milling machinery was bought late Saturday evening from the Bamara Less M'f'g Co., of Moline, Ill. Mr. Wm. Ebert, of Louisville, represented the successful company. He sold two milling outfits to the late John T. Rabboth, of Louisville, and his firm is now putting up a large steel reinforced elevator for the Dunlop Milling Co., of Clarksville. The machinery sold by Mr. Ebert will have a capacity of 350 barrels per day. The capacity of boilers and engines will allow an increase of 150 barrels. The company has planned from the first for this. The Climax Co. will pay special attention to making corn meal and has bought a mill that will enable them to furnish from 600 to 800 bushels of superior meal per day.

The company will put in a dynamo for furnishing 150 electric lights and an electric motor.

The plans for the building are being changed somewhat by the architects in order to make the building when completed "fit" the machinery and engine, which are much larger than when first contemplated. It has not yet been decided by the company whether the building will be brick or reinforced concrete. This will be decided after all the bids for construction are in.

Mr. Ross A. Rogers, the manager, and Mr. Oliver, head miller, think they have not only selected the very best milling machinery and engine made, but think they have done one of the hardest weeks' work of their lives. Night and day they have been examining, suggesting and listening to suggestions until they have about worn themselves out and are now ready for a rest. But they won't get it, as their work has just begun. They want to have ground broken for the building about the last of this week or the first of next.

As we said some weeks since Hopkinsville will soon be a milling center and furnish a big part of the Southern people with their flour. When the Climax Mills start making flour the capacity of the four mills will be about 2,000 barrels per day. But there is plenty of room for other mills and the next mill to follow the Climax will be welcome and will have plenty of territory—the whole South—into which to ship its products. "We can't get factories, so let's have more mills and plenty of them. Home consumption doesn't amount to anything, but the South is the field."

## H. C. MOORE IS TAX COLLECTOR

A Special Meeting of the City Council Was Held Friday Night.

MR. TANDY'S SUCCESSOR

The Meeting Was Short and Election on First Ballot.

The City Council met in special session Friday night and Mayor Meacham officially informed the Board of the death of City Tax Collector Gus Tandy on July 24, and stated that he had called the meeting to fill the vacancy.

On motion of Councilman Davis the Mayor appointed Councilmen Davis, Twyman and Ware to draft suitable resolutions on the death of Mr. Tandy.

A ballot was then ordered to nominate a Tax Collector. On the first ballot H. C. Moore received 4 votes and Henry Hurt 3 votes.

The roll was called and Mr. Moore was elected, receiving 7 votes. Adjournment followed.

The new collector is the well-known traveling salesman, who represented a Nashville wholesale grocery firm. He resigned Saturday and immediately qualified and entered upon his duties for the term ending January, 1908. His excellent qualifications are recognized by all.

### WYATT WATT,

The Colored Politician, Died Suddenly Friday.

Wyatt Watt, a colored carpenter and politician, died suddenly Friday night, of cholera morbus, from eating cold vegetables Thursday night. He was about 60 years old and was a recognized leader of his race. Several years ago he made a race for jailer but was defeated by a Democrat. He was a speaker of great force and natural oratory and in every campaign was found on the stump for his party. Until recently he was road boss for the Road Supervisor, but lost his place with the defeat of his party last year. Since April 1st he had been working at the carpenter's trade. He leaves a family.

### CLOSE CONTEST

Between Two Powerful Fraternal Nines.

The game of baseball between the Elks and Odd Fellows was hotly contested Friday afternoon and finally ended at 6 o'clock with both sides claiming it, though the scorers made it 17 to 17. Mayor Meacham acted as umpire and at one time narrowly escaped being mobbed. The proceeds amounted to \$28.80, most of which was given to a poor woman to buy a sewing machine.

### Ordered to Mayfield.

At 3 o'clock yesterday afternoon Capt. E. W. Clark was ordered to go at once with Co. D, to guard Allen Mathis, the negro rapist, who outraged Miss Ethel McLane. His trial begins to-day. The Company left last night.

### Released on Bond.

Tobe Wells, who at his examining trial before U. S. Commissioner Yonta, was held over to the Federal grand jury, has executed bond for his appearance at the October term of court at Owensboro.

### Important Meeting.

A very important business meeting will be held at the Baptist church to-morrow night after prayer meeting.

### Charlie Lindsay's Baby.

Laurel Lindsay, a little two-year-old son of Mr. and Mrs. Chas. W. Lindsay, of Madisonville, died Sunday of stomach trouble.

## New York Life.

Hopkinsville, Ky., April 30th, 1906.

Mr. Walter F. Garnett, Agent, New York Life Insurance Co., City.

Dear Sir:— It gives me pleasure to acknowledge receipt of statement of optional settlement on 20-Payment Life Policy, No. 223,593, for \$1,500.00, issued at age 35, with premium of \$52.50, taken out with you Apr. 29, '86. After having been insured for 20 years, I am offered a paid up policy for \$1,500 and a cash dividend of \$406.88, or the total value may be withdrawn in cash—\$1,215.88, (which is more than I have paid in in the 20 years) or a fully paid up policy payable at my death for \$2,219.00.

The cash settlement of \$1,215.88 is equal to Term Insurance at \$12.87 per \$1,000 and an investment of the balance of premiums with 54 per cent. compound interest for twenty years. This showing is certainly a creditable one for the New York Life, and I will be pleased to give you my application for \$1,000 on the Ordinary Life plan.

Yours very truly, C. E. WEST.

## The Old Reliable Jewelry House

of Hopkinsville is, after all, the best place to get anything in the jewelry line. There's a record behind us, a record of over thirty years; a clean record of satisfied customers, a record of honest dealing, for honest quality, honest prices. It's a record any jeweler might feel proud of. And when we sell an article we have in mind that we have a record to maintain, and no slipshod methods, no careless workmanship, no lack of quality, is ever allowed to mar the record of the past. But to improve, if possible, this record, is ever our aim, and goods are sold for as low a price as it is possible to sell reliable goods.

It will pay you in the end to deal with the Old Reliable Jeweler.

# The State College of Kentucky, LEXINGTON, KY.

The Agricultural and Mechanical (State College) of Kentucky offers the following courses of study, viz: Agricultural, Horticultural, Chemical, Biological, Mathematical, Physical, Normal School, Classical, Mechanical Engineering, Electrical Engineering, Civil Engineering, and Mining Engineering, each of which extends over four years and leads to a degree. Post graduate studies are also provided, leading to a master's degree. Each course of study is organized under a separate faculty. The general faculty number nearly fifty professors and instructors.

County appointees receive free tuition, room rent in the dormitories, fuel and light, and if they remain ten months, traveling expenses. The laboratories and museum are large, well equipped, comprehensive and modern.

Graduates from the several courses of study readily find excellent positions and liberal remuneration. The demand is largely in excess of the ability of the College to supply. The matriculation for the last year was, including Summer school, 815.

Specialists with the necessary number of assistants have charge of each department of natural science. Summer schools are provided for pedagogy, engineering, instruction in science and in arts. The State College of Kentucky, though bearing hitherto the title of "college," is the only institution in the Commonwealth doing, in any proper sense, university work.

The completion of the College home for young women provides facilities for good board and lodging. It is equipped with all modern conveniences, including bath rooms and room for physical culture. It is heated by steam and lighted by electricity.

An opportunity is thus afforded to young women of obtaining a thorough education in classics, modern language, literature, science, mathematics, logic, metaphysics, history, and political economy.

No other institution in the State offers advantages for education of women at all comparable to those offered by the State College of Kentucky.

The Normal Department will be on a better footing than ever heretofore. Last year's largely increased attendance, with the unprecedented growth of the Summer Normal School, both indicate that an era of prosperity surpassing that of all previous years has opened for the Normal Department of the State College.

Cured a Chum of Cholera Morbus and Saved His Life.

"While returning from the Grand Army Encampment at Washington City, a comrade from Elgin, Ill., was taken with cholera morbus and was in a critical condition," says Mr. J. E. Houghland, of Elgin, Ill. "I gave him Chamberlain's Colic, Cholera and Diarrhoea Remedy and believe I saved his life. I have been engaged for ten years in immigration work and conducted many parties to the south and west. I always carry this remedy and have used it successfully on many occasions. No person traveling or at home should be without this remedy." For sale by L. L. Elgin and Anderson & Fowler, the up-to-date druggists at Hopkinsville.

The Shelby county fair will begin August 28th.

### Your Liver

is out of order. You go to bed in a bad humor and get up with a bad taste in your mouth. You want something to stimulate your liver. Just try Herbine, the liver regulator. The bluegrass crops are in a fine condition.

### Bowel Complaint in Children.

During the summer months children are subject to disorders of the bowels which should receive careful attention as soon as the first unnatural looseness of the bowels appears. The best medicine in use for bowel complaint is Chamberlain's Colic, Cholera and Diarrhoea Remedy, as it promptly controls any unnatural looseness of the bowels, whether it be in a child or an adult. For sale by L. L. Elgin and Anderson & Fowler, the up-to-date druggists at Hopkinsville.

The Louisville horsehoers are on a strike.

Official figures just given out by Controller of the Currency Rigdely show that Kentucky's record in the matter of organization of national banks during the six fiscal years ending June 30 last, was good. ### The Specialty Breeder.

PLEASE for the poultry man or woman who raises more than one variety of thoroughbred fowls! Why not? Cannot the lover of the beautiful say of flowers, for instance, raise more than one kind? Does not a breeder pass from one flock to another of his different chosen varieties, taking particular notice of their different points, good looks, good qualities, carriage, etc.? In one variety he sees a male and female that he cannot help petting, because it is such a perfect beauty. Then take the whole flock or pen of one quality, say, of buff. What prettier sight to the lover of pretty fowls than to scatter the grain in circles, or half circles, or rows, and watching the yellow beauties feast at their tables? As the owner goes to feed his white birds he grows enthusiastic over the white purity of their plumage and for the time forgets the buff. He goes among them, perhaps lies down on the grass—if he has time—they will crowd around him, looking for more to eat, for a healthy fowl is always hearty, and it will be like the old game of clubfoot that was played when I was a child, and is played today; if he grins at them he will get a pinch, or rather, a peck, for they will try to get his teeth, sure. You know they have none of their own. And while this lover of the fancy objects to parting with his teeth, it will amuse him greatly. He will pet this one, then that one. What a fine comb this one has; here is one with such a beautiful plumage, and here is one who grand carriage and correct shape is superb. Next, he goes to the pen of the old reliable, the Barred Plymouth Rocks. Here, too, they are perfectly gentle. We who do not raise this kind must acknowledge the many good qualities of this, our American breed. And he, the owner, looking with pride at the good shape of the fowls, perfect barring of their plumage, remembering their many good qualities, and knowing that he has helped bring them to this near perfection, cannot help feeling a greater interest in his flock than some other one, though that some other one be an admirer of this variety. Suppose a breeder keeps three distinct breeds, all of, say, the buff variety of such large birds as Wyandotte, Plymouth Rock and S. C. Buff Orpington. Without regarding the rose comb of the first, and difference in legs and skin of the Wyandottes and Rocks from Orpingtons, he would have a good chance to study the shape of these breeds I have good birds from eggs purchased from the raiser of more than one breed.

To be sure, he would have to give more time, more study to poultry, and is supposed to do so. He has the different breeds and varieties and must study them, or get left in the specialty. I do not speak against the specialty breeder; no need to; his place is secure. The man must make his place in the poultry world, be he specialty or otherwise, and it would not do for one to commence with too many breeds, but do start with one good one, unless you are afflicted with a great deal of money, a good deal of brains and educated for the business. As for my humble self, I keep one kind, work with them myself and strive to make them better. But I do admire the poultry man or woman who can keep more than one breed—Mrs. W. A. Gibbon American Poultry Advocate.

Great Reduction  
In Prices of  
Wall Paper

Nobody is absolutely infallible. We all make some mistakes. One of our mistakes of last season was buying too much wall paper. We want to turn our surplus stock into cash for two reasons, viz: We need the cash and want to make room for the new fall stock. In order to do this,

We will for the next ten days, beginning Monday, July 16, sell everything in the WALL PAPER line at greatly reduced prices.

### Eggs Galore.

Isaac Wilder, of Little Compton, Rhode, Island, has the largest poultry farm in the world. He ships from 130,000 to 150,000 dozen eggs a year. He keeps his fowls on the colony plan, housing about forty in a house 8x12 in size. These houses are about 160 feet apart, set in long rows over gentle sloping fields. He has one hundred of these houses scattered over three or four fields. The food is loaded into a wagon which is driven about to each house in turn, the attendant feeding as he goes. At the afternoon feeding the eggs are collected. The morning food is a mash of cooked vegetables and mixed meal made up the afternoon of the day before. The afternoon feed is whole corn the year round, but of course more of this is given in winter than in summer. —Live Stock Tribune.

### Organized to Aid Church.

Baltimore, July 8.—John G. Herman has organized the chickens in the neighborhood of the Wesley Episcopal church near Sykesville, Carroll County, into a missionary society to raise funds for the church. Each hen is a lay-member, so to speak, for the farmers of the neighborhood have agreed to turn over to the church every egg that the hens lay on Sunday.

These eggs are to be taken to the church each Sunday afternoon at the hour of the Epworth League meeting and placed in a basket at one side of the pulpit. Mr. Herman will then stamp each egg with the date on which it was laid and on the following day will bring them to Baltimore for sale.

### Hatching the Chicks.

SAYS M. K. Boyer, in the Feather: "From that early date down to the present time, science has gradually solved the problem of the growth of life in the egg, of which, briefly the following data is given.

"An infertile egg, or rather one without a germ, is termed 'clear.' A fertile egg becomes 'addled or rotten' when the germ dies before the chick is formed.

"In about a day after incubation begins, life is perceptible. Toward the close of the second day, the first appearance of red blood is found on the yolk bag. On the third day the heart appears. On the fourth day, the pupil of the eye can be distinguished. On the fifth day, the lungs begin to be formed. On the sixth day, the gall bladder is first perceptible. On the seventh day, the bill can be seen. On the eighth day, the brain, wings, thighs and legs are formed. On the ninth day the bones are shaped. On the tenth day, the muscles of the wings are completely formed. On the eleventh day, the arteries begin to be distinct.

"On the twelfth or thirteenth day if the membrane enveloping the white of the egg be examined very cautiously by opening the shell, it will present, Blumenbach says, without any artificial injection, one of the most splendid spectacles that occurs in the whole organic creation—the most simple yet the most perfect substitute for the lungs. It exhibits a surface covered with countless blood vessels, venous and arterial, branching through its texture. The veins are of bright scarlet color, carrying oxygenated blood to the chick; while the arteries, on the other hand, are of a deep crimson or livid red, bringing the carbonated blood from the body embryo. The functions of the two are thus the reverse of those they perform after the chick respies.

"There used to be a theory that the mother hen broke the shell to free the chick. This, however, was exploded when incubators were invented. Yet, notwithstanding the long existence of the theory, Albert Magnus, as early as the thirteenth century, held that the chicken, and not the mother, performed that work.

"The present day poultry science has brought this development of the chick down to the following fact:

"Twelve hours after incubation has begun, the linaments of the head and body are discovered. Close observation has found the heart to beat by the close of the day. At the end of forty-eight hours two vesicles of blood are distinguished, and pulsation of which are visible. At the fiftieth hour an auricle of the heart appears. At the end of seventy hours, undistinguished wings, and on the head two bubbles for the brain, one for the bill and two others for the forepart and hind part of the head. The liver appears toward the fifth at the end of one hundred and thirty-one hours, the first voluntary motion is observed. Seven hours later the lungs and stomach become visible, and the intestines, the loins, and the upper jaw are seen at the end of one hundred and forty-two hours. The seventh day, the brain, which is slimy begins to have some existence. At the one hundred and nineteenth hour of incubation the bill opens and the flesh appears in the breast. Four hours after that the sternum is seen; that is to say, the breast bone. At the two hundred and tenth hour, the ribs come out of the back, the bill is very visible, as well as the gall bladder. The bill becomes green at the end of two hundred and thirty-six hours. About four hours later the feathers begin to shoot out, and the skull becomes gristly. The eyes appear at the two hundred and sixty-four hour; and at the two hundred and eighty-eight hour the ribs are perfect. At the end of the three hundred and thirty-first hour the spleen draws near to the stomach, and the lungs to the chest. At the end of three hundred and fifty-five hours, the bill frequently opens and shuts, and at the end of one hundred and fifty-one hours, or the eighteenth day, the first cry of the chick is heard.

"Thus it is by so many different degrees that these creatures are brought into life. All these progressions are made by rule, and there is not one without sufficient reason. No part of its body could appear sooner or later without the whole embryo suffering; and each of its limbs appear at the proper moment."

### HOME ENDORSEMENT

Hundreds of Hopkinsville Citizens Can Tell You All About It.

Home endorsement, the public expression of Hopkinsville people, should be evidence beyond dispute for every Hopkinsville reader. Surely the expression of friends and neighbors, cheerfully given by them, will carry more weight than the utterances of strangers residing in far-away places. Read the following:

J. B. Cravens, blacksmith, of 320 West 12th street, Hopkinsville, Ky., says: "Doan's Kidney Pills practically gave me a new back. For three or four years a kidney trouble had caused me the most constant and severe aches and pains through my back and compelled me to constantly complain in more than one way. When arising in the morning I felt sore and lame and had to make a great effort to dress myself. The trouble grew worse and a weakness of the kidneys set in which caused me a great deal of annoyance. Willing to try almost anything I purchased Doan's Kidney Pills as soon as I saw them advertised locally and got a box at L. A. Johnson & Co.'s drugstore. They brought me a great deal of benefit. My back has been well and strong now and the trouble with the kidney secretions is much relieved. I have a great deal of faith in Doan's Kidney Pills. For sale by all dealers. Price 50c. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

Elizabethan negroes fought and killed each other over a negro girl. Modest Claims Often Carry the Most Convictions.

When Maxim, the famous gun inventor, placed his gun before a committee of judges he stated, its carrying power to be much below what he felt sure the gun would accomplish. The result of the trial there was a great surprise, instead of disappointment. It is the same with the manufacturers of Chamberlain's Colic, Cholera and Diarrhoea Remedy. They do not publicly boast of what this remedy will accomplish, but prefer to let the users make the statements. What they do claim, is that it will positively cure diarrhoea, dysentery, pain in the stomach and bowels and has never been known to fail. For sale by L. L. Elgin and Anderson & Fowler, the up-to-date druggists at Hopkinsville.

### Old Chronic Sores.

As a dressing for old chronic sores there is nothing so good as Chamberlain's Salve. While it is not advisable to heal old sores entirely, they should be kept in good condition, for which this salve is especially valuable. For sale by L. L. ### The Weather.

For Kentucky—Tuesday fair, except showers in eastern portion.

The big Hopkins county fair is on this week with a full list of attractions.

Judge A. R. Burnam has again been named as the Republican member of the State Election Board.

The doctors of Mayville have all agreed to resist the cut of \$2 in medical examinations for insurance companies.

The Lyon County Herald will make its appearance at Eddyville August 3, with R. L. White as publisher.

A young couple at Philadelphia, denied permission to marry, jumped into the Delaware together. The bodies were clasped in each others' arms when found.

Samuel Byerly, the express company clerk of New York, who bid in \$5,800,000 of the Panama bonds, has disposed of his holdings at a profit of \$27,021.

Joseph Rodecap, who weighed 440 pounds, but was sufficiently active to attend his farming duties, died suddenly from a blood clot on his brain at his home near Anderson, Ind.

In the State primary in Texas, to elect delegates, T. M. Campbell leads for governor and will be nominated in convention. There were four candidates.

There will be a hot fight for the Democratic nomination for Congressman in the Tenth District Convention at Pikeville tomorrow. There are five candidates pretty evenly divided, with John E. Cooper and A. F. Byrd leading with 21 each. Judge Hargis heads the Breathitt county delegation, with "anybody to beat Byrd" as his motto. Congressman Hopkins is the hind man in the race in instructed votes.

Jesse Fitzgerald and Annie Henson, the two negroes who robbed and murdered Mrs. Robt. Broughton in her bed at Barboursville, are in jail at Stanford to escape a mob. They will be tried at Barboursville Aug. 6th. Allen Mathis, the negro fiend who assaulted Miss Ethel McLane at Mayfield, is in jail at Paducah and will be arraigned at once before a special grand jury. The prompt and certain punishment of these brutes will be the strongest possible argument against lynch law. Hang them by law and hang them quickly.

### State Division.

The State Division of United Daughters of Confederacy will meet at the Confederate Home, Pewee Valley, Ky., Wednesday and Thursday, October 3 and 4. It is believed this will be the largest convention yet held of the State U. D. C.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., is the only constitutional cure on the market. It is taken internally in doses from 10 drops to 40. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY & CO., Toledo, O. Sold by druggists, 75c. Take Hall's Family Pills for constipation.

### The Cause of Many

#### Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Men and women die of it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, causing extirpation of the bladder, or the kidneys themselves break down and waste away cell by cell. Bladder troubles almost always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy. It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

### BIG FAIR.

Hopkins County Event Begins Today at Madisonville.

The Hopkins county fair will begin at Madisonville today and continue through August 1, 2, 3, and 4. No fair anywhere could have a better reputation for square dealing and honest treatment of its patrons than the Hopkins county fair and the meeting this year promises to eclipse all similar occasions. The grounds are among the most beautiful and attractive in the State, being well supplied with water and every convenience demanded. The pleasure one experiences in meeting with old friends and becoming acquainted with new ones at these annual exhibitions is an enjoyable feature.

The management announces that no effort has been spared to make the fair a success, financially, and of the great pleasure to patrons and visitors. And further it will be the endeavor to deal fairly and impartially with all exhibitors, that it may receive their approval and also merit the best wishes of the citizens of the county for the success of the association.

A special train will be run to Madisonville, beginning Aug. 2, which will pass here at 8:30 a. m. and returning, will leave Madisonville at 6 o'clock p. m.

# WILL START EARLY!

Farmers will probably start early with their fallowing this season. The ground is in splendid condition now, and wheat threshing is over and the marketing of same is well under way. Oliver Chill Plows are staple the world over. They need no advertising; we just simply state that we handle them. Same with "John Deere."

By-the-way, we'll have something interesting to show you in a day or two in the way of a disc plow, different from, and better than, anything yet offered you.

Empire Drills, both hoe and disc, with and without fertilizer attachment, are still the leading implements in that line. We ask that our friends get their order in early for Fertilizer. Bone Meal will be scarce this season.

A fine basket dinner will be served on the grounds.

### Wants Court at Sebree.

The last session of the General Assembly of Kentucky enacted a law which provides for holding circuit court half the time in towns larger than the county seats, provided said larger town is twelve miles from the county seat by the nearest road or by the most convenient route usually traveled.

According to the provisions of this act half the December term of the Webster circuit court should be held at Sebree.

## SERIOUS ACCIDENT.

### Woman Loses an Arm 'as Result.

A distressing accident happened about one mile from Dawson Friday. Miss Ann Hicks, a sister of Essie J. Hicks, a merchant at Dawson, was shot in the left arm by Bass Morris, a nine-year-old boy. The limb was so badly shattered that amputation was necessary. It is thought that Miss Hicks will recover.

## SCALD ECZEMA ALL OVER BODY

Eruptions Appeared on Chest, and Face and Neck Were All Broken Out—Scalps and Crusts Formed—lowa Lady Has Great Faith in Cuticura Remedies for Skin Diseases.

## ANOTHER WONDERFUL CURE BY CUTICURA.

"I had an eruption appear on my chest and body and extend upwards and downwards, so that my neck and face were all broken out; also my arms and the lower limbs as far as the knees. At first thought it was prickly heat. But soon scales or crusts formed where the breaking out was. Instead of going to a physician, I purchased a complete treatment of the Cuticura Remedies, but which I had great faith, and all was satisfactory. A year or two later the eruption appeared again, only a little lower; but before it had time to spread, I procured another supply of the Cuticura Remedies, and continued their use until the cure was complete. It is now five years since the last attack, and have not seen any signs of a return. I have taken about three bottles of the Cuticura Remedies, and do not know how much of the Soap or Ointment, as I always keep them with me; probably one half dozen of each.

"I decided to give the Cuticura Remedies a trial after I had seen the results of their treatment of eczema on an infant belonging to one of my neighbors. The parents took the child to the nearest physician, but his treatment did no good. So they procured the Cuticura Remedies and cured her with them. When they began using Cuticura Remedies her face was terribly disfigured with sores, but she was entirely cured, for I saw the same child at the age of five years, and her mother told me the sores had never broken out since. I have more faith in Cuticura Remedies for skin diseases than anything I know of. I am, respectfully yours, Emma E. Wilson, Liscomb, Iowa, Oct. 1, 1905."

## Keep Your Fowls Tame.

It is entirely possible to drive the profit out of a flock of hens by stoning and pelting them every time they get into mischief. Be quiet in your manner if you wish to be successful with hens.

Make the fowls feel that when you are present, there is a protector among them, not something that is likely to scare or harm them. The only way you can keep your fowls on good terms with you, is by keeping on good terms with them.

A few days ago I read an article in one of our prominent agricultural weeklies in which the writer said: "If your hens collect in the barn, or any place where their presence is not desired, they can be quickly expelled by throwing an empty bushel sack up in the air, allowing it to settle over them." The advice is good and should not be followed. You will lose more money by following it than by allowing the fowls to remain where they are. But neither extreme is necessary; go to matters in a common sense manner, and chase the fowls as gently as possible.—R. B. Sando, in Successful Farming.

## Clean Water Troughs.

Only water troughs or fountains that can be easily cleaned should be used in the poultry yard. Wooden troughs should be watched carefully because they become slimy though the water looks clear and clean. A broom and sponges should be used on such troughs, afterward rinse thoroughly with clear water. This task should be attended to once a week and the troughs filled with fresh water that they need. If ducks are kept, the troughs should have slats or laths across the tops to prevent ducklings from wallowing in the water and making it filthy.—P. H. Moore.

**The Smile**  
that won't come off, appears on baby's face after one bottle of White's Cream Vermifuge, the great worm medicine. Why not keep that smile on baby's face. If you keep this medicine on hand, you will never see anything else but smiles on his face. Mrs. S. - Blackwell, O., writes: "My baby was peevish and fretful. Would not eat and I feared he would die. I used a bottle of White's Cream Vermifuge and he has not had a sick day since." Sold by Cook & Higgins.

Many serious diseases arise from neglect of the bowels. Chamberlain's Stomach and Liver Tablets are a pleasant and agreeable laxative. They invigorate the liver and regulate the bowels. For sale by L. L. Elgin and Anderson & Fowler, up-to-date druggists at Hopkinsville.

## For Rats and Mice.

The latest way expedient for driving a house of rats is the spraying of strong spirits of ammonia in holes and cracks in the sub base. Then spread the white of an egg on a cloth, sprinkle liberally with red pepper and tack over rats holes, pepper inside. Whitewash made yellow with copperas, then applied thickly to the stones and rafters in a cellar, is also effective.—Fancier.

A little life may be sacrificed to an hour's delay. Cholera infantum, dysentery, diarrhoea come suddenly. Only safe plan is to have Dr. Fowler's Extract of Wild Strawberry always on hand.

## Chickens Nursed by a Cat.

A few days ago Mr. Simpson, a tradesman of Aston, near Birmingham, received some chickens, hatched in a Pearson Incubator, for exhibition as an advertisement for Spratt's chicken food. Before being placed in the window, their chirping attracted the attention of an old cat, who gently drew them to her basket. Since their removal to the window, the cat has continued nestling them in her own fur, and regularly washes them.—Fancier.

## Chicago Egg Market.

THE Reliable Poultry Journal in an interesting article tells how the Egg Exchange is operated in Chicago.

Arriving in Chicago, sometimes a trainload at once, the eggs are taken to the great South Water street market and placed in huge subterranean coolers. Then they are sold in the rooms of the Butter and Egg exchange. The egg board's principal room, is almost unfurnished. Along the back is a large blackboard. The quarters are almost deserted except from 9:30 to noon each day, but in those two and a half hours hundreds of thousands and sometimes nearly a million dollars in business is done.

Just before 10 o'clock the egg dealers—who both buyers and sellers—arrive. They know what the receipts are likely to be, from reports of railroads and their own agents. At 10 o'clock a gong rings and the exchange is open to receive offers.

Now the important work of the day is begun. The board has a quotation committee of nine members. These retire into a room after securing an average of the bids, and in a few minutes emerge with the "official quotation." This may be the average price at which eggs sold that day, or it may be higher or lower. The committee's powers to fix the price are unlimited. It considers, first, the supply on the market, then the weather in the different "hen states," to determine whether the fowls are laying or not, the condition of the market, deciding whether the demand should increase or fall off, and a dozen other things. They do not overlook the quotations telegraphed from New York and the "Curb sale" prices—the figures at which eggs are selling in South West street before the board meets. Sometimes they will raise the price a cent, sometimes they will cut it, but the committee's figures stand for the next twenty-four hours, and all eggs coming into Chicago after 10:30 a. m. must be paid for at the board rates.

A sale similar to the first is held in the afternoon, but only "Seconds," "Dirties," "Trade eggs," "Ordinaries," "Cracks" and other poor grades are marketed. These are sold "at mark," that is, the buyer must take them as he finds them. All the good grades may be rejected if they do not come up to the grading under which they were offered. These are the grades of eggs recognized on the Chicago and New York exchanges:

## Grading of Eggs as to Quality.

Extras—Fresh eggs of uniform quality, either white or brown or mixed colors. The shrinkage from cracked or bad must not be more than half a dozen in a thirty dozen case.

Prime firsts—similar to extras, but shrinkage must not exceed one dozen.

Firsts—Fresh eggs, uniform quality, good size, clean, in good cases, with loss not more than two dozen.

Ordinary firsts—Similar to firsts, with loss not more than four dozen.

Checks—Cracked eggs, fresh or "reasonably fresh," with cracks not so large that contents will break out with careful handling.

Seconds—Eggs small, shell slightly soiled, "reasonably fresh," but freshness not guaranteed.

Dirties—Small, misshaped and other dirty eggs.

A great industry in Chicago is the fancy egg business, and a score of concerns have made and are making fortunes out of it.

If the cases are sold with the eggs 15 cents extra is paid. Cases are returned to shippers free of charge by express companies. Hardly any eggs are sold on commission. Prices last year (official) ranged as follows: January, 28¢@33¢; February, 18¢@22¢; March, 16¢@18¢; April, 16¢@17¢; May, 16¢@16¢; June, 15¢@16¢; July, 15¢@16¢; August, 18¢@20¢; September, 18¢@20¢; October, 20¢@22¢; November, 22¢@24¢; December, 23¢@25¢; for year, 15¢@33¢.

## Chickens With Cards.

A Bala woman has been much annoyed by the trespassing of a neighbor's chickens.

The other day she tied with stout thread to large grains of corn cards whereupon was written:

"Please pen us up better. We are spoiling Mrs. Dash's garden."

She scattered these contrivances over her lawn. The chickens, trespassing as usual, ate the corn, and from their mouths that night they spoke the woman's message to their shocked master.

Thereafter they trespassed no more.—New Orleans Times-Democrat.

## How Nature Provides.

OUR BEAUTY, HEALTH AND HAPPINESS.

Is it not possible if not probable that elements necessary for the body-forms are contained in the native medicinal roots found in the plant, digested in the plant laboratory of nature and made ready for man or animal?

The medicinal virtues of many American plants and roots were known to the early Indians. Thus a root known to modern physicians as Caulophyllum or Blue Cohosh was known to the Indians as "Snake root." Another, known to the Indians as "Battledore root," is used in modern medicine as "Cinchona." Prof. King's American Dispensary, an authority in these matters says: "Our Indians set a high value on Battledore root (Black Cohosh) in diseases of women. It is surpassed by no other drug in its curative conditions of the parts where there are dragging pains and tenderness." After many years of study and experiment Dr. Pierce, the medical director of the "Lodge" Hotel and Surgical Institute, at Buffalo, N. Y., put up a prescription of his own, containing the non-alcoholic glyceric extract of the two above mentioned ingredients, together with Golden Seal root, Lady's Slipper root and Unicorn root. Thus, there is no mystery in the make-up of this famous "Prescription." The use of alcohol is

**Learn the Truth.**

The one medicine for the cure of woman's diseases is in printed on the wrapper of each box, leaving the great laborer to the U. S. Y. when it is made, is said Dr. Pierce's FAVORITE

**It Stands Alone** not only in respect to its ingredients, but also as the only specific advertised remedy for woman's diseases which absolutely CONTAINS NO ALCOHOL.

**It Stands Alone** as the one medicine for women, the makers of which take their names fully into their confidence and tell them exactly what they are taking. This Dr. Pierce can afford to do, because his "Favorable Prescriptions" is made of such ingredients and after a working formula that has thousands of cures to its credit placing its merits above criticism.

**It Stands Alone** as Nature's diseases peculiar to women because the earth supplies the vegetable ingredients.

Mrs. Mary J. Ward (Trained Nurse, Washington Hospital), of 1705 9th Street, N. W., Washington, D. C., writes:

"I felt badly for four years, had terrible health, and root health in largely a matter of healthy activity of the bowels. Dr. Pierce's Pleasant Pellets cure constipation. The Land of BIG CROPS and PROSPERITY.

Are you making as much off your farm as you ought? No doubt you are making all you can. The trouble is the land is too much. It takes too much money to buy a big farm, and so you are trying to make a living on a small farm, or perhaps you are renting one and paying a good share of what you raise, in rent. Wouldn't it be better to go where the price of good land is so little that you can own a big farm—where every acre of the ground is working for you and all you raise is paying you good profits?

There are thousands of acres of fertile land in the Southwest along the line of the Cotton Belt Route that can be bought for from \$3 to \$10 an acre. This land is increasing in value each year.

See the Southwest at Small Cost.

A trip to the Southwest would convince you that your best interests lie in settling there. The trip can be made at very little expense. On the first and third Tuesdays of each month you can purchase a round trip ticket, or say point in the Southwest on or via the Cotton Belt Route at very low rates. Stop-over will be allowed for you to visit any locality you are interested in.

Write at once for free copies of books describing this wonderful country and for full information about cost of land, etc.

Subscribed and sworn to by L. R. Davis, before me this 9th day of April, 1906.

Notary Public for Christian County.

## STATE OF KENTUCKY, (Seal)

COUNTY OF CHRISTIAN, (Seal)

The affiant, John C. Duffy, Commissioner appointed by the Fiscal Court for Christian County, Kentucky, to make a settlement with L. R. Davis as Sheriff of said county, for the year 1905, hereby states that the foregoing accounts are true statements of all receipts and disbursements had and made by the said Davis, as said Sheriff, for and during the year 1905, as disclosed to this affiant by said Davis; that this settlement was made with said Davis only after careful examination of his books, and that the same is correct, as this affiant believes, as far as said Davis has disclosed the amount of moneys received and disbursed by him; that said Davis failed and refused to disclose or account for the full term penalty collected and paid for the year 1905 on all county taxes not paid before the 1st day of December of said year, and that this affiant is unable to state the amount of said taxes, and that he is unable to Christian county, and that to that extent this is not a full and correct settlement of his accounts for the year 1905.

Subscribed and sworn to before me, by John C. Duffy, this April 9, 1906.

Notary Public for Christian County.
